

# LOYOLA COLLEGE OF ARTS AND SCIENCE (Co-Ed)

Mettala, Oilpatty Village, Rasipuram Taluk, Namakkal District - 636 202  
Tamil Nadu, India.

## BEST PRACTICE - 4

### Introduction

The general objective of this Publishing Achievements is to encourage the hard and smart workers among the students to wherever the newsletter is propagated.

### 1. Title of The Practice: **PUBLISHING ACHIEVEMENTS OF STUDENTS THROUGH ANNUALCALENDAR.**

### 2. Objectives of the Practice:

The title is not displayed overtly in the vision or mission statements but is an innovation of the staff and the management of Loyola College of Arts and Science (Co-Ed), Mettala.

- **To motivate the Toppers in all the fields such as curricular, co-curricular and extra-curricular activities.**
- **To let know other students of their achievements and get self motivated.**
- **To elicit appreciation and applause from parents, public and in other institutions wherever the newsletter reaches offline and online.**
- **An eye opener for the future stake holders to be absorbed in their institutions with a decent salary.**

### 3. The Context:

It is a common practice in this hurried and fast world to overlook some of the important contributors for college. Here we mention to toppers in the various field of the curriculum. In our college we have the following competitions:

- Academic Competition
- Sports Competition
- Games Competition
- Fine Arts /Cultural Competition
- NSS
- NCC
- YRC
- Eco-Club
- Outreach Program - SHINE

#### ➤ AICUF

The toppers in these fields are acknowledged in the College Annual Day with prizes and certificates and appreciations offline. Hence it is known to the college students only. But in order to bring them to lime light to the public we have started this best practice.

#### 4. The Practice:

The toppers (First, Second and Third Prize winners) of the various competitions listed above are honoured in the Annual College Day celebrations every year. So, this goes into oblivion within a short span of time. Hence the toppers' achievements are limited to the awareness of the peer groups only. In this best practice we publish the photo with his/her name and the field in which the topper achieved the fete as print and soft copies which are circulated in various social media and the college website. This practice started from the year 2022 only.

#### 5. Evidence of Success:

It is expected to:

- motivate the performance a little higher from the present status.
- make aware the stakeholders and entrepreneurs about the toppers who will find it easy to select their employees easily.
- encourage their parents and the public to send their young wards for higher education which will increase the gross enrollment ratio in higher education.

#### 6. Problems Encountered and Resources Required:

Since websites and hard copies are involved in publicising this best practice a little more funds from the well wishers of the college and the noble hearted public may increase the rang of visibility of the achievers and of the college in the local, national and international arena. If additional financial resources are achieved sufficiently then this practice will yield better results in future.
